State Hospital Fund Program Aid Is Asked

Arthur J. Will, County Superintendent of Charities, asked some 3000 representatives of southland hospitals to petition the State Legislature for an amendment to the California law which would make funds available for construction of private hospitals. Dr. P. K. Gilman, chief of the State Health Department's hospital service told the group that the federal government had allotted \$10,000,000 for new hospitals and equipment in California during the next five years on a matching basis with the state. He pointed out, however, that the money cannot be used as State law prohibits spending funds for private institutions.

Hundreds Of New 'Phones In Local Area

Following another record-breaking year for new telephones, the Pacific Telephone and Telegraph Company announced today that it has made a net gain of 141,365 telephones in Southern California in 1947 to raise the total added since the end of the war to 333,170.

At the end of the year there were 1,357,602 telephones in service in the Southland served by the Pacific company.

In the Torrance exchange, according to Manager Smith, 1227 telephones have been added since the end of the war to increase the total in service at the end of the year to 4095.

At the same time the manager stated that the number of held orders now pending for service in the company's files has been reduced to 11,800 - the lowest point since the end of the war. The company expects to continue the downhill trend evidenced during the last part of 1947 in further cutting down the number of applications this year as more facilities become available.

In the Torrance exchange at the end of the year there were 548 applications on file for telephone service.

As the new year opens the company announced that its expansion program calls for gross plant expenditures of about \$75,000,000 in 1948.

Since the end of the war the telephone company has completed 14 new buildings ranging in size from a small community dial office in the San Diego County community of Pala to the \$4,000,000 new 10-story toll office on Grand ave. in downtown Los Angeles. New building additions completed in the same period numbered 35.

During 1948 eight new buildings and 22 building additions are scheduled to be completed in Southern California. Twenty-two new garages were also constructed for the company in the last 28 months.

The manager declared that the telephone company would continue its expansion during 1948 just as rapidly as possible so that all who want telephone service may have it at the earliest possible time.
